INDEPENDENT AUDITOR'S REPORT

Honorable Mayor and Members
of the Township Committee
Township of Plumsted
County of Ocean
New Egypt, New Jersey

Report on the Financial Statements

We have audited the accompanying balance sheets - regulatory basis of the various funds and account group of the Township of Plumsted as of December 31, 2018 and 2017, and the related statements of operations and changes in fund balance - regulatory basis for the years then ended, the related statement of revenues - regulatory basis, and statement of expenditures - regulatory basis for the year ended December 31, 2018 and the related notes to the financial statements, which collectively comprise the Township's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles and practices prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and in compliance with audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Township's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating

the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

Basis for Adverse Opinion on Accounting Principles Generally Accepted in the United States of America

As described in Note 1, the financial statements are prepared by the Township of Plumsted on the basis of the financial reporting provisions of the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to meet the requirements of the State of New Jersey.

The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on Accounting Principles Generally Accepted in the United States of America

In our opinion, because of the significance of the matter discussed in the “Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles” paragraph, the financial statements referred to above do not present fairly, in accordance with accounting principles generally accepted in the United States of America, the financial position of the Township, as of December 31, 2018 and 2017, or the results of its operations and changes in fund balance for the years then ended.

Unmodified Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements referred to above present fairly, in all material respects, the assets, liabilities, reserves and fund balance - regulatory basis of the various funds of the Township, as of December 31, 2018 and 2017, and the results of its operations and changes in fund balance - regulatory basis for the years then ended, and the statement of revenues - regulatory basis, statement of expenditures - regulatory basis, and general fixed assets group of accounts – regulatory basis, for the year ended December 31, 2018 in conformity with accounting principles and practices prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey as described in Note 1.

Emphasis of Matter

Change in Accounting Principle

As discussed in Note 1 to the financial statements, during the fiscal year ended December 31, 2018 the Township adopted Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting for Post-employment Benefits Other than Pensions - an Amendment of GASB Statement No. 45, 57, & 74. Our opinion is not modified with respect to this matter.

Other Matters

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Township's basic financial statements. The supplemental schedules presented for the various funds are presented for purposes of additional analysis as required by the Division of Local Government Services, Department of Community Affairs, State of New Jersey and are not a required part of the basic financial statements.

The supplemental schedules presented for the various funds are the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements of each of the respective individual funds and account group taken as a whole.

The supplementary data and letter of comments and recommendations section has not been subject to the auditing procedures applied in the audit of the financial statements, and accordingly, we do not express an opinion or provide assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with Government Auditing Standards, we have also issued our report dated July 22, 2019 on our consideration of the Township's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Township's internal control over financial reporting and compliance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

Honorable Mayor and Members
of the Township Committee
Township of Plumsted
County of Ocean
New Egypt, New Jersey

We have audited, in accordance with the auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States and audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, the financial statements - regulatory basis of the Township of Plumsted, as of and for the year ended December 31, 2018, and the related notes to the financial statements, which collectively comprise the Township's basic financial statements, and have issued our report thereon dated July 22, 2019. Our report indicated that the Township's financial statements were not prepared in accordance with accounting principles generally accepted in the United States of America but rather prepared in accordance with the regulatory basis of accounting prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Township's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any

deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Township's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Township's internal control or on compliance. This report is an integral part of an audit performed in accordance with Government Auditing Standards and audit requirements as prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey in considering the Township's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

TOWNSHIP OF PLUMSTED
NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2018

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Township of Plumsted, County of Ocean, New Jersey, (the "Township"), is an instrumentality of the State of New Jersey established to function as a municipality. The Township Committee consists of five (5) elected officials and is responsible for fiscal control of the Township.

Except as noted below, the financial statements of the Township include every board, body, office or commission supported and maintained wholly or in part by funds appropriated by the Township as required by N.J.S. 40A:5-5. Accordingly, the financial statements of the Township do not include the operations of any libraries, first aid organizations, volunteer fire companies or the local school district.

GASB Statement 14, as amended by GASB Statements 39, 61 and 80, establishes criteria to be used in determining the component units, which should be included in the financial statements of a primary government. The financial statements of the Borough are not presented in accordance with GAAP (as discussed below). Therefore, the Borough had no component units as defined by GASB Statement No. 14, as amended by GASB Statements 39, 61 and 80. The financial statements of the following units are reported separately:

Plumsted Township Municipal Utilities Authority
Plumsted Township Redevelopment Agency (Currently Inactive)

B. Description of Funds

The GASB is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. GASB codification establishes the presentation of basic financial statements into three fund types, the governmental, proprietary and fiduciary funds, as well as government-wide financial reporting that must be used by general purpose governmental units when reporting financial position and results of operations in accordance with U.S. Generally Accepted Accounting Principles, (GAAP).

The accounting policies of the Township conform to the accounting principles applicable to municipalities which have been prescribed by the

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Description of Funds (Continued)

Division. Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the financial transactions and accounts of the Township are organized on the basis of funds and account groups which is different from the fund structure required by GAAP. A fund or account group is an accounting entity with a separate set of self-balancing accounts established to record the financial position and results of operations of a specific governmental activity. As required by the Division, the Township accounts for its financial transactions through the following individual funds and account groups:

Current Fund - resources and expenditures for governmental operations of a general nature, including federal and state grant funds.

Animal Control Trust Fund - dog license receipts and disbursements.

Trust Other Fund - receipts, custodianship and disbursements of funds in accordance with the purpose for which each reserve was created.

General Capital Fund - receipt and disbursement of funds for the acquisition of general capital facilities, other than those acquired through the Current Fund.

General Fixed Assets Account Group – utilized to account for property, land, buildings and equipment that have been acquired by other governmental funds.

C. Basis of Accounting

The accounting principles and practices prescribed for municipalities by the Division differ in certain respects from GAAP applicable to local governmental units. The more significant differences are as follows:

A modified accrual basis of accounting is followed with minor exceptions.

Revenues - are recorded when received in cash except for certain amounts which are due from other governmental units. Federal and state grants are realized as revenue when anticipated in the Township's budget. Receivables for property taxes are recorded with offsetting reserves on the balance sheet of the Township's Current Fund; accordingly, such amounts are not recorded as revenue until collected. Other amounts that are due the Township which are susceptible to accrual are also recorded as receivables with offsetting reserves and

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Accounting (Continued)

Revenues (Continued)

recorded as revenue when received. GAAP requires revenues to be recognized in the accounting period when they become susceptible to accrual, reduced by an allowance for doubtful accounts.

Expenditures - are recorded on the "budgetary" basis of accounting. Generally, expenditures are recorded when an amount is encumbered for goods or services through the issuance of a purchase order in conjunction with the Encumbrance Accounting System. Outstanding encumbrances at December 31 are reported as a cash liability in the financial statements and constitute part of the Township's statutory Appropriation Reserve balance. Appropriation reserves covering unexpended appropriation balances are automatically created at December 31st of each year and recorded as liabilities, except for amounts which may be canceled by the governing body. Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding fiscal year. Lapsed appropriation reserves are recorded as income. Appropriations for principal payments on outstanding general capital bonds, notes and loans are provided on the cash basis; interest on general capital indebtedness is on the cash basis.

Encumbrances - contractual orders, at December 31, are reported as expenditures through the establishment of encumbrances payable. Under GAAP, encumbrances outstanding at year end are reported as reservations of fund balance because they do not constitute expenditures or liabilities.

Deferred Charges - the regulatory basis of accounting utilized by the Township requires that certain expenditures be deferred, and raised as items of appropriation in budgets of succeeding years. These deferred charges include the two general categories, overexpenditures and emergency appropriations. Overexpenditures occur when expenditures recorded as "paid or charged" exceed available appropriation balances. Emergency appropriations occur when, subsequent to the adoption of a balanced budget, the governing body authorizes the establishment of additional appropriations based on unforeseen circumstances or for other special purposes as defined by statute. Overexpenditures and emergency appropriations are deducted from total expenditures in the calculation of operating results and are established as assets for Deferred Charges on the respective balance sheets. GAAP does not permit the deferral of overexpenditures to succeeding budgets. In addition, GAAP does not recognize expenditures based on the authorization of an appropriation. Instead, the authorization of special

Deferred Charges (Continued)

purpose expenditures, such as the preparation of tax maps or revaluation of assessable real property, would represent the designation of fund balance. The status of deferred charges at December 31, 2018 is set forth in Note 9.

Property Acquired for Taxes - is recorded in the Current Fund at the assessed valuation when such property was acquired and is fully reserved. GAAP requires such property to be recorded at its market value.

Sale of Municipal Assets - the proceeds from the sale of municipal assets can be held in a reserve until anticipated as revenue in a future budget. GAAP requires such proceeds to be recorded as revenue in the year of sale.

Interfunds - interfund receivables in the Current Fund are recorded with offsetting reserves which are created by charges to operations. Income is recognized in the year the receivables are liquidated. GAAP does not require the establishment of an offsetting reserve. The status of interfunds is set forth in Note 16.

Inventories of Supplies - the costs of inventories of supplies for all funds are recorded as expenditures at the time individual items are purchased. The cost of inventories is not included on the various balance sheets. GAAP requires the cost of inventories to be reported on the balance sheet until utilized and expended.

General Fixed Assets - N.J.A.C. 5:30-5.6, Accounting for Governmental Fixed Assets, as promulgated by the Division, which differs in certain respects from GAAP, requires the inclusion of a statement of general fixed assets of the Township as part of its basic financial statements. General fixed assets are defined as nonexpendable personal property having a physical existence, a useful life of more than one year and an acquisition cost of \$5,000.00 or more per unit.

Public domain ("infrastructure") general fixed assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized.

General fixed assets that have been acquired and are utilized in a governmental fund operation are accounted for in the General Fixed Assets Account Group rather than in a governmental fund. No depreciation has been provided on general fixed assets or reported in the

financial statements.

Expenditures for construction in progress are required to be recorded in the Capital Fund until such time as the construction is completed and put into operation.

Fixed assets acquired through grants in aid or contributed capital have not been accounted for separately.

During 2018 the following changes occurred in the fixed assets of the Township:

	Balance Jan. 1, 2018	Net Change	Balance Dec. 31, 2018
General Fixed Assets Account Group:			
Land	\$ 1,261,203.30	\$ 283,500.00	\$ 1,544,703.30
Improvements	4,023,943.55	2,500.00	4,026,443.55
Equipment and Vehicles	845,807.87	17,691.30	863,499.17
	<u>\$ 6,130,954.72</u>	<u>\$ 303,691.30</u>	<u>\$ 6,434,646.02</u>

General fixed assets, as shown in Exhibit D, are presented as recorded in the Township records with offsetting reserves on the balance sheet of the Township's General Fixed Assets Account Group.

Accounting and Financial Reporting for Pensions - The GASB approved Statement No. 68, *Accounting and Financial Reporting for Pensions Administered by State and Local Government Employers*. This statement improves accounting and financial reporting by state and local governments for pensions. It also improves information provided by state and local government employers about financial support for pensions that is provided by other entities. This statement results from a comprehensive review of the effectiveness of existing standards of accounting and financial reporting for pensions with regard to providing decision useful information, supporting assessments of accountability and inter-period equity, and creating additional transparency. This statement replaces the requirement of Statement No. 27, *Accounting for Pensions by State and Local Governmental Employers*, as well as the requirements of Statement No. 50, *Pension Disclosures*, as they relate to pensions that

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Accounting (Continued)

Accounting and Financial Reporting for Pensions (Continued)

are provided through pension plans administered as trusts or equivalent arrangements that meet certain criteria. The requirements of Statements 27 and 50 remain applicable for pensions that are not covered by the scope of this statement. This statement is effective for periods beginning after June 15, 2014.

GASB approved Statement 71, Pension Transition for Contributions made Subsequent to the Measurement Date - an amendment to GASB No. 68. The objective of this Statement is to address an issue regarding application of the transition provisions of Statement No. 68, Accounting and Financial Reporting for Pensions. The issue relates to amounts associated with contributions, if any, made by a state or local government employer or non-employer contributing entity to a defined benefit pension plan after the measurement date of the government's beginning net pension liability.

Statement 68 requires a state or local government employer (or non-employer contributing entity in a special funding situation) to recognize a net pension liability measured as of a date (the measurement date) no earlier than the end of its prior fiscal year. If a state or local government employer or non-employer contributing entity makes a contribution to a defined benefit pension plan between the measurement date of the reported net pension liability and the end of the government's reporting period, Statement 68 requires that the government recognize its contribution as a deferred outflow of resources.

In addition, Statement 68 requires recognition of deferred outflows of resources and deferred inflows of resources for changes in the net pension liability of a state or local government employer or non-employer contributing entity that arise from other types of events.

At transition to Statement 68, if it is not practical for an employer or non-employer contributing entity to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, paragraph 137 of Statement 68 required that beginning balances for deferred outflows of resources and deferred inflows of resources not be reported. Consequently, if it is not practical to determine the amounts of all deferred outflows of resources and deferred inflows of resources related to pensions, contributions made after the measurement date of the beginning net pension liability could not have been reported as deferred outflows of resources at transition. This could have resulted in a significant understatement of an employer or non-employer contributing entity's beginning net position and expense in the initial

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

C. Basis of Accounting (Continued)

Accounting and Financial Reporting for Pensions (Continued)

period of implementation.

This Statement amends paragraph 137 of Statement 68 to require that, at transition, a government recognize a beginning deferred outflow of resources for its pension contributions, if any, made subsequent to the measurement date of the beginning net pension liability. Statement 68, as amended, continues to require that beginning balances for other deferred outflows of resources and deferred inflows of resources related to pensions be reported at transition only if it is practical to determine all such amounts.

Under GAAP, municipalities are required to recognize the pension liability in Statements of Revenues, Expenses, Changes in Net Position (balance sheets) and Notes to the Financial Statements in accordance with GASB 68. The liability required to be displayed by GASB 68 is displayed as a separate line item in the Unrestricted Net Position area of the balance sheet.

New Jersey's municipalities and counties do not follow GAAP accounting principles and, as such, do not follow GASB requirements with respect to recording the net pension liability as a liability on their balance sheets. However, N.J.A.C.5:30 6.1(c)(2) requires municipalities to disclose GASB 68 information in the Notes to the Financial Statements. The disclosure must meet the requirements of GASB 68.

D. Financial Statements

The GASB codification also defines the financial statements of a governmental unit to be presented in the general purpose financial statements to be held in accordance with GAAP. The Township presents the financial statements as reflected in the "Requirements of Audit and Accounting Revision of 1987" as prescribed by the Division and which differ from the financial statements required by GAAP.

NOTE 2: CASH AND CASH EQUIVALENTS

The Township considers petty cash, change funds, cash in banks, deposits in the New Jersey Cash Management Fund and certificates of deposit as cash and cash equivalents.

A. Deposits

New Jersey statutes permit the deposit of public funds in institutions

A. Deposits (Continued)

which are located in New Jersey and which meet the requirements of the Governmental Unit Deposit Protection Act, (GUDPA) or the State of New Jersey Cash Management Fund. GUDPA requires a bank that accepts public funds to be a public depository. A public depository is defined as a state bank, a national bank or a savings bank which is located in the State of New Jersey, the deposits of which are insured by the Federal Deposit Insurance Corporation, ("FDIC"). The statutes also require public depositories to maintain collateral for deposits of public funds that exceed certain insurance limits. All collateral must be deposited with the Federal Reserve Bank or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.00.

The Township had the following cash and cash and cash equivalents at December 31, 2018

Fund	Cash		Less	Cash
	On Hand	On Deposit	Checks Outstanding	Book Balance
Current	\$ 3,546.35	\$ 2,570,708.58	\$ 205,831.85	\$ 2,368,423.08

	<u>\$ 3,719.12</u>	<u>\$ 3,520,778.03</u>	<u>\$ 225,383.73</u>	<u>\$ 3,299,113.42</u>

At year-end, the carrying amount of the Township's deposits was \$3,520,778.03. Of this amount \$250,000.00 was covered by FDIC insurance and a collateral pool under New Jersey's Governmental Unit Deposit Protection Act covered \$3,049,328.11. An amount of \$221,449.92 was on deposit in the name of various developers for escrow and is insured by FDIC insurance or uninsured depending upon the deposits of the individual developer in the escrow depository.

Custodial Credit Risk - Deposits - custodial credit risk is the risk that, in the event of a bank failure, the government's deposits may not be returned to it. The Township does not have a specific policy for custodial credit risk other than those policies that adhere to the requirements of statute.

	<u>\$ 3,520,778.03</u>	<u>\$ 3,542,677.66</u>

B. Investments

The purchase of investments by the Township is strictly limited by the express authority of the New Jersey Local Fiscal Affairs Law, N.J.S.A. 40A:5-15.1. Permitted Investments include any of the following type of securities:

1. Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America;
2. Government money market mutual funds which are purchased from an investment company or investment trust which is registered with the Securities and Exchange Commission under the "Investment Company Act of 1940," 15 U.S.C. 80a-1 et seq., and operated in accordance with 17 C.F.R. § 270.2a-7 and which portfolio is limited to U.S. Government securities that meet the definition of an eligible security pursuant to 17 C.F.R. § 270.2a-7 and repurchase agreements that are collateralized by such U.S. Government securities in which direct investment may be made pursuant to paragraphs (1) and (3) of N.J.S.A. 5-15.1. These funds are also required to be rated by a nationally recognized statistical rating organization.
3. Any obligation that a federal agency or a federal instrumentality has issued in accordance with an act of Congress, which security has a maturity date not greater than 397 days from the date of

purchase, provided that such obligation bears a fixed rate of interest not dependent on any index or other external factor;

4. Bonds or other obligations of the Local Unit or bonds or other obligations of school districts of which the Local Unit is a part or within which the school district is located.
5. Bonds or other obligations, having a maturity date not more than 397 days from date of purchase, approved by the Division of Investment of the Department of Treasury for investment by Local Units;
6. Local government investment pools that are fully invested in U.S. Government securities that meet the definition of eligible security pursuant to 17 C.F.R. § 270a-7 and repurchase agreements that are collateralized by such U.S. Government securities in which direct investment may be made pursuant to paragraphs (1) and (3) of N.J.S.A. 5-15.1. This type of investment is also required to be rated in the highest category by a nationally recognized statistical rating organization.
7. Deposits with the State of New Jersey Cash Management Fund established pursuant to section 1 of P.L. 1977, c.281 (C. 52:18A-90.4); or
8. Agreements for the repurchase of fully collateralized securities if:
 - a. the underlying securities are permitted investments pursuant to paragraphs (1) and (3) of this subsection;
 - b. the custody of collateral is transferred to a third party;
 - c. the maturity of the agreement is not more than 30 days;
 - d. the underlying securities are purchased through a public depository as defined in section 1 of P.L. 1970, c.236 (C. 17:19-41); and
 - e. a master repurchase agreement providing for the custody and security of collateral is executed.

Based upon the limitations set forth by New Jersey Statutes 40A:5-15.1 and existing investment practices of the Investment Council of the New Jersey Cash Management Fund, the Township is general not exposed to credit risks, custodial credit risk, concentration of credit risks and interest rate risks for its investments nor is it exposed to foreign currency risk for

its deposits and Investments.

Other than cash equivalents that would otherwise qualify as investments, except for their maturity or the withdrawal provisions of their deposit, the Township had no investments in qualified securities at year-end.

NOTE 3: MUNICIPAL DEBT

The Local Bond Law, Chapter 40A:2, governs the issuance of bonds to finance general municipal capital expenditures. All bonds are retired in annual installments within the statutory period of usefulness. All bonds issued by the Township are general obligation bonds, backed by the full faith and credit of the Township. Bond Anticipation Notes, which are issued to temporarily finance capital projects, shall mature and be paid off within ten years or financed by the issuance of bonds.

NJEIT Interim Construction Notes

On October 28, 2015, the Township signed a loan agreement with the New Jersey Environmental Infrastructure Trust, (NJEIT) in order to provide funding for Ordinance #15-06. The NJEIT assigned the project the following project number: S-340607-03. Funding in the amount of \$1,250,000 was approved by the NJEIT. The loan is in the interim construction phase of the loan process. Of the \$1,250,000 approved, \$72,347 was drawn down in 2015, \$356,880 was drawn down in 2016, \$638,380 was drawn down in 2017 and \$67,202 was drawn down in 2018. As of the date of the audit, a balance of \$115,191 remained available for draw down. To date, no loan amortization schedule has been provided. When the loan becomes eligible for permanent financing, the amortization scheduled will be established.

Bonds and Notes Authorized but Not Issued

At December 31, 2018, the Township had bonds and notes authorized but not issued in the amount of \$25,635,735.45.

NOTE 4: COMPENSATED ABSENCES

As discussed in Note 1 and in accordance with accounting principles prescribed by the State of New Jersey, the cash basis of accounting is followed for recording the Township's liability related to compensated absences. The Township's policy with respect to compensated absences is as follows:

Vacation Leave

Any unused vacation leave may be carried forward into the next succeeding year only. In the event an employee is unable to utilize during the first six (6) months of the succeeding year any unused vacation time, the Township Committee may consider approval by resolution, an employee's request with Department Head approval, to utilize the aforementioned unused vacation time during the last six (6) months of the succeeding year. Unused vacation time from the previous year shall not be utilized so that a vacation will exceed the total for the previous year.

Sick Leave

Sick leave will be recorded in thirty (30) minute increments. Sick leave can be accumulated without limit during each employee's length of service for a period of up to thirty (30) days. In the first calendar year of employment, full-time permanent employees shall be entitled to two thirds (2/3) a day of sick leave for each month or fractional part thereof calculated from date of employment. Thereafter, full-time permanent employees shall be entitled to either eight (8) days of sick leave each year which shall be credited to their account at the beginning of the year.

Any amount of sick leave used which exceeds the amount accrued to an employee's account at time of separation from the Township will be deducted from the final salary payment. Upon termination for any reason accumulated sick time will be forfeited. Temporary and seasonal employees shall not be eligible for sick leave with pay.

If an employee is unable to report for work due to illness, this fact shall be reported to the department not later than one (1) hour after the start of the normal work day. An employee on sick leave and receiving their normal compensation who, in addition, qualifies for payments under workers' compensation weekly benefits shall, during the period they are receiving such weekly benefits, be entitled to only that portion of their regular salary which with the workers' compensation payments, equals their normal salary.

Effective October 29, 2018, part-time employees became eligible for paid sick leave at the rate of one (1) hour of sick leave per thirty (30) hours worked.

The amount of sick leave accumulated may differ between contractual and non-contractual employees.

Compensated absences at December 31, 2018 approximate \$43,442.00

NOTE 5: FUND BALANCES APPROPRIATED

The Current Fund balance at December 31, 2018, which was appropriated and included as anticipated revenue for the year ending December 31, 2019, was as follows:

Current Fund:

Prepaid Taxes	<u>\$91,341.18</u>	<u>\$474,341.58</u>

NOTE 7: ASSESSMENT AND COLLECTION OF PROPERTY TAXES

New Jersey statutes require that taxable valuation of real property be prepared by the Township Tax Assessor as of October 1 in each year and filed with the County Board of Taxation (the "Board") by January 10 of the following year. Upon the filing of certified adopted budgets by the Township, Local School District, Fire District and County, the tax rate is struck by the Board based on the certified amounts in each of the taxing districts for collection to fund the budgets. Pursuant to statute, this process is to be completed on or before May 3, with a completed duplicate of the tax rolls to be delivered to the Township Tax Collector (the "Collector") on or before May 13th.

Tax bills are prepared then mailed by the Collector of the Township annually and set forth the final tax for the tax year. The bill contains a credit for preliminary amounts billed previously with the balance payable in equal installments on August 1st and November 1st of the tax year. In addition the property owner receives a preliminary bill for the succeeding year based on one half of the prior year's tax. The preliminary payments are due on February 1st and May 1st. The N.J. Statutes allow a grace period of 10 days for each payment period and the Township granted this option to taxpayers. Taxes become delinquent if not paid on the installment dates and become subject to interest penalties of 8% or 18% of the amount delinquent. If taxes are delinquent on or after April 1st of the succeeding year, the delinquent amount is subject to "Tax Sale" which places a tax lien on the property allowing the holder to enforce the tax lien by collection or foreclosure. New Jersey property tax laws establish a tax lien on real estate as of January 1st of the current tax year even though the amount due is not known.

NOTE 8: DEFERRED CHARGES TO FUTURE TAXATION FUNDED AND UNFUNDED

Upon the authorization of capital projects, the township establishes deferred charges for the cost of the capital projects to be raised by future taxation. Funded deferred charges relate to permanent debt issued, whereas unfunded deferred charges relate to temporary or non-funding of the authorized cost of capital projects. According to the New Jersey Statutes Annotated 40A:2-4, the Township may levy taxes on all taxable property within the local unit to repay the debt. Annually, the Township raises the debt requirements for the particular year in the current budget. As funds are raised, the deferred charges are reduced.

NOTE 9: DEFERRED CHARGES TO BE RAISED IN SUCCEEDING BUDGETS

Certain expenditures are required to be deferred to budgets of succeeding years. At December 31, 2018, the following deferred charges are shown on the balance sheets of the various funds:

NOTE 10: PENSION PLANS

Substantially all eligible employees participate in the Public Employees' Retirement System (PERS), or the Police, Firemen's Retirement System (PFRS) or the Defined Contribution Retirement System (DCRP), which have been established by state statute and are administered by the New Jersey Division of Pensions and Benefits. The Division issues a publicly available financial report that includes the financial statements and required supplementary information for the Public Employees Retirement System, Police and Firemen's Retirement System and Consolidated Police and Firemen's Pension Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, P.O. Box 295, Trenton, New Jersey, 08625 or are available online at www.nj.gov/treasury/pensions/annrpts.shtml.

Public Employees' Retirement System (PERS) - The Public Employees' Retirement System (PERS) was established as of January 1, 1955, under the provisions of N.J.S.A. 43:15A, to provide retirement, death, disability and medical benefits to certain qualified members. The PERS is a cost-sharing multiple employer plan. Membership is mandatory for substantially, all full-time employees of the State of New Jersey or any county, municipality, school district or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state pension fund or local jurisdiction's pension fund.

Police and Firemen's Retirement System (PFRS) - The Police and Firemen's Retirement System (PFRS) was established as of July 1, 1944, under the provisions of N.J.S.A. 43:16A, to provide retirement, death, and disability benefits to its members. The PFRS is a cost-sharing multiple-employer plan. Membership is mandatory for substantially, all full-time county and municipal police or firemen or officer employees with police powers appointed after June 30, 1944.

Defined Contribution Retirement Program (DCRP) - The Defined Contribution Retirement Program (DCRP) was established July 1, 2007, under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007, and was expanded under the provisions of Chapter 89, P.L. 2009. The DCRP provides eligible employees and their beneficiaries with a tax-sheltered, defined contribution retirement benefit, along with life insurance coverage and disability coverage.

Vesting and Benefit Provisions

The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43:36. All benefits vest after ten years of service, except for medical benefits, which vest after 25 years of service. Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving ten years of service credit, in which case, benefits would begin the first day of the month after the member attains normal retirement age.

NOTE 10: PENSION PLANS

Vesting and Benefit Provisions (Continued)

The vesting and benefit provisions for PFRS are set by N.J.S.A. 43:16A and 43:36. All benefits vest after ten years of service, except for disability benefits, which vest after four years of service. Retirement benefits for age and service are available at age 55. Members may seek special retirement after achieving 25 years of creditable service or they may elect deferred retirement after achieving ten years of service.

Newly elected or appointed officials that have an existing DCRP account, or are a member of another State-administered retirement system are immediately vested in the DCRP. For newly elected or appointed officials that do not qualify for immediate vesting in the DCRP. Employee and employer contributions are held during the initial year of membership. Upon commencing the second year of DCRP membership, the member is fully vested. However, if a member is not eligible to continue in the DCRP for a second year of membership, the member may apply for a refund of the employee contributions from the DCRP, while the employer contributions will revert back to the employer. Employees are required to contribute 5.5% of their base salary and employers contribute 3.0%.

Funding Policy

The contribution policy for PERS is set by N.J.S.A. 43:15A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's pension contribution is based on an actuarially determined amount, which includes the employer portion of the normal cost and an amortization of the unfunded accrued liability. Funding for noncontributory group life insurance benefits is based on actual claims paid. For fiscal year 2018, the State's pension contribution was less than the actuarial determined amount. The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. During 2018, PERS provides for employee contributions of 7.50% of employees' base salary.

The contribution policy for PFRS is set by N.J.S.A. 43:16A and requires contributions by active members and contributing employers. State legislation has modified the amount that is contributed by the State. The State's contribution amount is based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. The local employers' contribution amounts are based on an actuarially determined rate, which includes the normal cost and unfunded accrued liability. For the fiscal year 2018, the State contributed an amount less than the actuarially determined amount. During 2018, PFRS provides for employee contributions of 10.00% of employees' base salary.

The Township's share of pension, which is based upon the annual billings received from the state, amounted to \$216,127 for 2018, \$225,672.00 for 2017 and \$220,432 for 2016.

NOTE 10: PENSION PLANS (CONTINUED)

Certain Township employees are also covered by the Federal Insurance Contribution Act.

Accounting and Financial Reporting for Pensions – GASB #68

The Governmental Accounting Standards Board (GASB) has issued Statement No. 68 “Accounting and Financial Reporting for Public Employees Pensions” which requires the State of New Jersey to calculate and allocate, for note disclosure purposes only, the unfunded net pension liability of Public Employees Retirement System (PERS) and the Police and Firemen’s Retirement System (PFRS) of the participating municipality as of December 31, 2018. The statement does not alter the amounts of funds that must be budgeted for pension payments under existing state law.

Under accounting principles and practices prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, any unfunded net pension liability of the municipality, allocated by the State of New Jersey, is not required to be reported in the financial statements as presented and any pension contributions required to be paid are raised in that year’s budget and no liability is accrued at December 31, 2018.

Public Employees Retirement System (PERS)

At June 30, 2018, the State reported a net pension liability of \$1,435,050.00 for the Township of Plumsted’s proportionate share of the total net pension liability. The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. The Township’s proportion of the net pension liability was based on a projection of the Township’s long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2018, the Township’s proportion was 0.0072884000 percent, which was an increase of 0.0003622913 percent from its proportion measured as of June 30, 2017.

For the year ended June 30, 2018, the State recognized an actuarially determined pension expense of \$78,792.00 for the Township of Plumsted’s proportionate share of the total pension expense. The pension expense recognized in the Township’s financial statement based on the April 1, 2018 billing was \$64,163.00.

Actuarial Assumptions

The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which rolled forward to June 30, 2018. These actuarial valuations used the following assumptions:

	<u>June 30, 2018</u>	<u>June 30, 2017</u>
Inflation	2.25 Percent	2.25 Percent
Salary Increases (based on age)		
Though 2026	1.65-4.15 Percent	1.65-4.15 Percent
Thereafter	2.65-5.15 Percent	2.65-5.15 Percent
Investment Rate of Return	7.00 Percent	7.00 Percent

Preretirement mortality rates were based on the RP-2000 Employee Preretirement Mortality Table for male and female active participants. For State employees, mortality tables are set back 4 years for males and females. For local employees, mortality tables are set back 2 years for males and 7 years for females. In addition, the tables provide for future improvements in mortality from the base year of 2013 using a generational approach based on the Conduent modified 2014 projection scale. Postretirement mortality rates were based on the RP-2000 Combined Healthy Male and Female Mortality Tables (set back 1 year for males and females) for service retirements and beneficiaries of former members. In addition, the tables for service retirements and beneficiaries of former members provide for future improvements in mortality from 2012 to 2013 using Projection Scale AA and using a generational approach based on the Conduent 2014 projection scale thereafter. Disability retirement rates used to value disabled retirees were based on the RP-2000 Disabled Mortality Table (set back 3 years for males and set forward 1 year for females).

Actuarial Assumptions (Continued)

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2011 to June 30, 2014. It is likely that future experience will not exactly conform to these assumptions. To the extent that actual experience deviates from these assumptions, the emerging liabilities may be higher or lower than anticipated. The more the experience deviates, the larger the impact on future financial statements.

Long-Term Rate of Return

In accordance with State statute, the long-term expected rate of return on plan investments (7.00% at June 30, 2018 and June 30, 2017) is determined by the State Treasurer, after consultation with the Directors of the Division of Investment and Division of Pensions and Benefits, the board of trustees and the actuaries. The long-term expected rate of return was determined using a building block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic rates of return for each major asset class included in PERS's target asset allocation as of June 30, 2018 are summarized in the following table:

Discount Rate

The discount rate used to measure the total pension liability was 5.66% and 5.00% as of June 30, 2018 and June 30, 2017, respectively. This single blended discount rate was based on the long-term expected rate of return on pension plan investments of 7.00% for both June 30, 2018 and June 30, 2017 and a municipal bond rate of 3.87% and 3.58% for June 30, 2018 and June 30, 2017 respectively based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 50% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through June 30, 2046. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through June 30, 2046 and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Police and Firemen's Retirement System (PFRS)

At June 30, 2018, the State reported a net pension liability of \$1,940,693.00 for the Township of Plumsted's proportionate share of the total PFRS net pension liability. The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which was rolled forward to June 30, 2018. The Township's proportion of the net pension liability was based on a projection of the Township's long-term share of contributions to the pension plan relative to the projected contributions of all participating employers, actuarially determined. At June 30, 2018, the Township's proportion was 0.0143418793 percent, which was a decrease of 0.0027811534 percent from its proportion measured as of June 30, 2017.

For the year ended June 30, 2018, the State recognized an actuarially determined pension expense of (\$984.00). The pension expense recognized in the Township's financial statements based on the April 1, 2017 billing was \$151,542.00.

Actuarial Assumptions

The total pension liability for the June 30, 2018 measurement date was determined by an actuarial valuation as of July 1, 2017, which rolled forward to June 30, 2018. This actuarial valuation used the following assumptions:

	<u>2018</u>	<u>2017</u>

Preretirement mortality rates were based on the RP-2000 Combined Healthy Mortality tables projected on a generational basis from the base year of 2000 to 2013 using Projection Scale BB and the Conduent modified 2014 projection scale thereafter. For preretirement accidental mortality, a custom table with representative rates was used and there is no mortality improvement assumed. Post-retirement mortality rates for male service retirements are based on the RP-2000 Combined Healthy Mortality Tables projected on a generational basis using Projection Scale AA from the base year of 2012 to 2013 and the Conduent modified 2014 projection scale thereafter. Postretirement mortality rates for female service retirements and beneficiaries were based on the RP-2000 Combined Healthy Mortality Tables projected on a generational basis from the base year of 2000 to 2013 using Projection Scale BB and the Conduent modified 2014 projection scales thereafter. Disability mortality rates were based on a custom table with representative rates and no mortality improvement assumed.

The actuarial assumptions used in the July 1, 2017 valuation were based on the results of an actuarial experience study for the period July 1, 2010 to June 30, 2013.

municipal bond rate of 3.87% and 3.58% as of June 30, 2018 and June 30, 2017 respectively based on the Bond Buyer Go 20-Bond Municipal Bond Index, which includes tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers and the non-employer contributing entity will be made based on the contribution rate in the most recent fiscal year. The State employer contributed 50% of the actuarially determined contributions and the local employers contributed 100% of their actuarially determined contributions. Based on those assumptions, the plan's fiduciary net position was projected to be available to make projected future benefit payments of current plan members through 2062. Therefore, the long-term expected rate of return on plan investments was applied to projected benefit payments through 2062, and the municipal bond rate was applied to projected benefit payments after that date in determining the total pension liability.

Sensitivity of the collective net pension liability to changes in the discount rate

The following presents the collective net pension liability of the participating employers as of June 30, 2018 respectively, calculated using the discount rate as disclosed above as well as what the collective net pension liability would be if it was calculated using a discount rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

Special Funding Situation

In accordance with N.J.S.A. 43:16A-15, local participating employers are responsible for their own contributions based on actuarially determined amounts, except where legislation was passed which legally obligated the State if certain circumstances occurred. The legislation which legally obligates the State is as follows: Chapter 8, P.L. 2000, Chapter 318, P.c. 2001, Chapter 86, P.L. 2001, Chapter 511, P.L. 1991, Chapter 109, P.c. 1979, Chapter 247, P.L. 1993 and Chapter 201, P.L. 2001. The amounts contributed by the State on behalf of the Township under this legislation is considered to be a special funding situation as defined by GASB Statement No. 68, and the State is treated as a non-employer contributing entity. Since the Borough does not contribute under this legislation directly to the plan (except for employer specific financed amounts), there is no net pension liability or deferred outflows or inflows to disclose in the notes to the financial statements of the Borough related to this legislation.

At June 30, 2018 and 2017, the State's proportionate share of the net pension liability attributable to the Township for the PFRS special funding situation is \$645,238.00 and \$643,190.00 respectively.

At June 30, 2018, the Borough's and State of New Jersey's proportionate share of the PFRS net pension liability were as follows:

Township's Proportionate Share of Net Pension Liability	\$1,940,693.00
State of New Jersey Proportionate Share of Net Pension Liability Associated with the Township	<u>263,611.00</u>
	<u>\$2,204,304.00</u>

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued Financial Report for the State of New Jersey Police and Firemen's Retirement System (PFRS). The report may be obtained at State of New Jersey Division of Pensions and Benefits P.O. Box 295 Trenton, New Jersey 08625-0295 <http://www.state.nj.us/treasury/pensions>.

NOTE 11: CAPITAL LEASES

The Township of Plumsted entered into a lease/purchase agreement for one (1) motor vehicle for the Plumsted Township Police Department; specifically a 2017 Dodge Charger. Under the terms of the lease the Township will pay interest at the rate of 6% on a principal amount of \$31,727.00. At December 31, 2018, a principal balance of \$10,563.69 was outstanding. Payments are due on May 16th of each year throughout the lease term. Obligations remaining under the lease are as follows:

Year	Principal	Interest
2019	\$ <u>10,563.69</u>	\$ <u>633.85</u>

NOTE 12: SCHOOL TAXES

Local School District Taxes have been raised and liabilities deferred. Section 13 of P.L. 1991, C. 63 required that any municipality that levied school taxes on a school year basis shall defer from the 1991 municipal purposes tax levy at least 25% of the amount allowable to be deferred (which is 50% (fifty percent) of the levy). The remainder of the allowable amount shall be deferred from the levy in each of the next three years (1992-1994). The amounts so deferred shall be regarded as fund balance and shall be used to offset the local property tax levy for local purposes. In 1992 at least 50% of the amount of the amount allowable to be deferred from the 1992 tax levy was required to offset the 1993 local property tax levy and the total amount of deferral at December 31, 1993 was 75% of the amount allowable to be deferred based on the 1993 tax levy.

In 1994 Section 13, P.L. 1991, C. 63 was amended to provide municipalities with the option to determine the percentage if any of the amount allowable to be deferred to offset the local property tax levy for local purposes.

NOTE 13: OTHER POSTEMPLOYMENT BENEFITS

General Information about the OPEB Plan

The State Health Benefit Local Government Retired Employees Plan (the Plan) is a cost-sharing multiple-employer defined benefit other postemployment benefit (OPEB) plan with a special funding situation. It covers employees of local government employers that have adopted a resolution to participate in the Plan. For additional information about the Plan, please refer to the State of New Jersey (the State), Division of Pensions and Benefits' (the Division) Comprehensive Annual Financial Report (CAFR), which can be found at <https://www.state.nj.us/treasury/pensions/financial-reports.shtml>.

The Plan provides medical and prescription drug to retirees and their covered dependents of the participating employers. Under the provisions of Chapter 88, P.L. 1974 and Chapter 48, P.L. 1999, local government employers electing to provide postretirement medical coverage to their employees must file a resolution with the Division. Under Chapter 88, local employers elect to provide benefit coverage based on the eligibility rules and regulations promulgated by the State Health Benefits Commission. Chapter 48 allows local employers to establish their own age and service eligibility for employer paid health benefits coverage for retired employees. Under Chapter 48, the employer may assume the cost of postretirement medical coverage for employees and their dependents who: 1) retired on a disability pension; or 2) retired with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 3) retired and reached the age of 65 with 25 or more years of service credit in a State or locally administered retirement system and a period of service of up to 25 years with the employer at the time of retirement as established by the employer; or 4) retired and reached age 62 with at least 15 years of service with the employer. Further, the law provides that the employer paid obligations for retiree coverage may be determined by means of a collective negotiations agreement.

In accordance with Chapter 330, P.L. 1997, which is codified in N.J.S.A 52:14-17.32i, the State provides medical and prescription coverage to local police officers and firefighters, who retire with 25 years of service or on a disability from an employer who does not provide postretirement medical coverage. Local employers were required to file a resolution with the Division in order for their employees to qualify for State-paid retiree health benefits coverage under Chapter 330. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L.1989.

NOTE 13: OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Pursuant to Chapter 78, P.L. 2011, future retirees eligible for postretirement medical coverage who have less than 20 years of creditable service on June 28, 2011 will be required to pay a percentage of the cost of their health care coverage in retirement provided they retire with 25 or more years of pension service credit. The percentage of the premium for which the retiree will be responsible will be determined based on the retiree's annual retirement benefit and level of coverage.

Basis of Presentation

The schedule of employer and nonemployer allocations and the schedule of OPEB amounts by employer and nonemployer (collectively, the Schedules) present amounts that are considered elements of the financial statements of its participating employers or the State as a nonemployer contributing entity. Accordingly, they do not purport to be a complete presentation of the financial position or changes in financial position of the participating employers or the State. The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles. Such preparation requires management of the Plan to make a number of estimates and assumptions relating to the reported amounts. Due to the inherent nature of these estimates, actual results could differ from those estimates.

Allocation Methodology

GASB Statement No. 75 requires participating employers in the Plan to recognize their proportionate share of the collective net OPEB liability, collective deferred outflows of resources, collective deferred inflows of resources, and collective OPEB expense. The special funding situation's and nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are based on separately calculated total OPEB liabilities. For the special funding situation and the nonspecial funding situation, the total OPEB liabilities for the year ended June 30, 2018 were \$6,338,578,586 and \$9,642,524,641, respectively. The nonspecial funding situation's net OPEB liability, deferred outflows of resources, deferred inflows of resources, and OPEB expense are further allocated to employers based on the ratio of the plan members of an individual employer to the total members of the Plan's nonspecial funding situation during the measurement period July 1, 2017 through June 30, 2018. Employer and nonemployer allocation percentages have been rounded for presentation purposes; therefore, amounts presented in the schedule of OPEB amounts by employer and nonemployer may result in immaterial differences.

NOTE 13: OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

Special Funding Situation

Under Chapter 330, P.L. 1997, the State shall pay the premium or periodic charges for the qualified local police and firefighter retirees and dependents equal to 80 percent of the premium or periodic charge for the category of coverage elected by the qualified retiree under the State managed care plan or a health maintenance organization participating in the program providing the lowest premium or periodic charge. The State also provides funding for retiree health benefits to survivors of local police officers and firefighters who die in the line of duty under Chapter 271, P.L.1989.

Therefore, these employers are considered to be in a special funding situation as defined by GASB Statement No. 75 and the State is treated as a nonemployer contributing entity. Since the local participating employers do not contribute under this legislation directly to the plan, there is no net OPEB liability, deferred outflows of resources or deferred inflows of resources to report in the financial statements of the local participating employers related to this legislation. However, the notes to the financial statements of the local participating employers must disclose the portion of the nonemployer contributing entities' total proportionate share of the collective net OPEB liability that is associated with the local participating employer.

The participating employer allocations included in the supplemental schedule of employer special funding allocations and the supplemental schedule of special funding amounts by employer for each employer are provided as each employer is required to record in their financial statements, as an expense and corresponding revenue, their proportionate share of the OPEB expense allocated to the State of New Jersey under the special funding situation and include their proportionate share of the collective net OPEB liability in their respective notes to their financial statements. For this purpose, the proportionate share was developed based on eligible plan members subject to the special funding situation. This data takes into account active members from both participating and non-participating employer locations and retired members currently receiving OPEB benefits.

Additionally, the State's proportionate share of the OPEB liability attributable to the Township is \$2,842,772.00 as of December 31, 2018. The OPEB liability was measured as of June 30, 2018. The total OPEB liability used to calculate the OPEB liability was determined using update procedures to roll forward the total OPEB liability from an actuarial valuation as of July 1, 2017, to the measurement date of June 30, 2018. The State's proportion of the OPEB liability associated with the Township was based on a projection of the Township's long-term share of contributions to the OPEB plan relative to the projected contributions of all participating members, actuarially determined. The State's proportion measured

NOTE 13: OTHER POSTEMPLOYMENT BENEFITS (CONTINUED)

as of June 30, 2018 was 0.045749%, which was an increase of 0.013416% from its proportion measured as of June 30, 2017, which is the same proportion as the Township's. At December 31, 2018, the Township's and the State of New Jersey's proportionate share of the OPEB liability were as follows:

State of New Jersey's	
Proportionate Share of OPEB Liability	
Associated with the Township	\$ 2,842,772.00

At December 31, 2018, the State's proportionate share of the OPEB expense, associated with the Township, calculated by the plan as of the June 30, 2018 measurement date was \$86,054.00

NOTE 14: RISK MANAGEMENT

The Township is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Township is a member of the Ocean County Municipal Joint Insurance Fund, and the Municipal Excess Liability Fund, public entity risk pools currently operating as a common risk management and insurance programs for municipalities within the state. The Township pays an actuarially determined annual assessment to Ocean County Municipal Joint Insurance Fund for its insurance coverage and that of the Municipal Excess Liability Fund. Supplemental assessments may be levied to supplement the funds. The Township has not been notified on any supplemental assessments.

Settled claims resulting from these risks have not exceeded insurance coverage in any of the past three years.

NOTE 15: CONTINGENT LIABILITIES

State and Federal Financial Assistance

The Township receives financial assistance from the State of New Jersey and the U.S. government in the form of grants. Entitlement to the funds is generally conditional upon compliance with terms and conditions of the financial assistance agreements and applicable regulations, including the expenditure of the funds for eligible purposes. Substantially all grants, entitlements and cost reimbursements are subject to financial and compliance audits by grantors. As a result of these audits, cost previously reimbursed could be disallowed and require repayment to the grantor agency. As of December 31, 2017, the Township estimates that no material liabilities will result from such audits.

NOTE 15: CONTINGENT LIABILITIES (CONTINUED)

Pending Litigation

It is the opinion of the Township officials that there is no litigation threatened or pending that would materially affect the financial position of the Township or adversely affect the Township's ability to levy, collect and enforce the collection of taxes or other revenue for the payment of its bonds, notes or other obligations.

NOTE 16: INTERFUND RECEIVABLES AND PAYABLES

The following interfund balances remained on the balance sheets at December 31, 2018:

<u>Fund</u>	<u>Interfund Receivable</u>	<u>Interfund Payable</u>
Current Fund	\$	\$ 110,710.06
Grant Fund	<u>110,710.06</u>	<u></u>
	\$ <u>110,710.06</u>	\$ <u>110,710.06</u>

The purpose of these interfunds is short-term borrowing.

NOTE 17: SUBSEQUENT EVENTS

The Township has evaluated subsequent events occurring after the financial statement date through the audit date which is the date the financial statements were available to be issued. Based upon this evaluation, the Township has determined that following items require disclosure in the financial statements.

On November 1, 2017, the Township Committee approved Bond Ordinance 2017-21 which appropriated \$25,000,000 and authorized the issuance of \$25,000,000 in bonds or notes. This ordinance authorized bonds to be issued to aid in a Redevelopment Project including, but not limited to, the construction of a new sewer collection system pump station and treatment facility and the provision of expenses of the Plumsted Municipal Utilities Authority incurred in connection with the construction and operation of same.

The Township is financing these authorized project costs through the New Jersey Environmental Infrastructure Trust Program. In June, 2019, the Township closed on their interim loan with the I-Bank and began drawing down payments for the construction of the sanitary sewer collection system. In addition, Lennar (the redeveloper) began construction of infrastructure at the development site at approximately the same time.

NOTE 17: SUBSEQUENT EVENTS (CONTINUED)

The Township has signed an agreement with Lennar Plumsted, LLC, as the redeveloper of Block 40, Lots 10 and 18, for a minimum of 400 and a maximum of 500 units, in an Active Adult Community. Lennar shall pay to the Township a fee of \$19,500 for each market unit. As of June, 2019, Lennar has paid the Township \$300,000 (as per the Redevelopment Agreement) for final subdivision/site plan approval and commencement of construction. Another \$100,000 is due upon the issuance of the first building permit. Lennar has also agreed to prepay any annual debt service shortfall not covered by these prepayments.

Honorable Mayor and Members
of the Township Committee
Township of Plumsted
County of Ocean
New Egypt, New Jersey

In accordance with requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, the following are the *General Comments* and *Recommendations* for the year ended December 31, 2018.

GENERAL COMMENTS:

Contracts and Agreements required to be advertised by (N.J.S.A.40A:11-4)

N.J.S.A.40A:11-4 states every contract or agreement, for the performance of any work or furnishing or hiring of any materials or supplies, the cost or the contract price whereof is to be paid with or out of public funds not included within the terms of Section 3 of this act, shall be made or awarded only by the Governing Body of the contracting unit after public advertising for bids and bidding therefore, except as is provided otherwise in this act or specifically by any other Law. No work, materials or supplies shall be undertaken, acquired or furnished for a sum exceeding in the aggregate the bid threshold, except by contract or agreement.

The bid threshold in accordance with N.J.S.A. 40A:11-4 was \$40,000 for the year ended December 31, 2018.

It is pointed out that the governing body of the municipality has the responsibility of determining whether the expenditures in any category will exceed the statutory minimum within the fiscal year. Where question arises as to whether any contract or agreement might result in violation of the statute, the solicitor's opinion should be sought before a commitment is made.

Inasmuch as the system of records did not provide for an accumulation of payments for categories for the performance of any work or the furnishing or hiring of any materials or supplies, the results of such an accumulation could not reasonably be ascertained. Disbursements were reviewed, however, to determine whether any clear-cut violations existed.

Our examination of expenditures did not reveal any individual payments or contracts in excess of the bid threshold “for the performance of any work, or the furnishing of any materials, supplies or labor” other than those where bids had been previously sought by public advertisement or where a resolution had been previously adopted under the provisions of *N.J.S.A.40A:11-6*.

Collection of Interest on Delinquent Taxes and Assessments

N.J.S.54:4-67, provides the method for authorizing interest and the maximum rates to be charged for the nonpayment of taxes or assessments on or before the date when they would become delinquent.

The governing body on January 1, 2018 adopted the following resolution authorizing interest to be charged on delinquent taxes:

“NOW THEREFORE, BE IT RESOLVED, by the Mayor and Township Committee of the Township of Plumsted, County of Ocean, State of New Jersey as follows:

- 1. The Tax Collector is hereby authorized and directed to charge 8% per annum on the first \$1,500.00 of taxes or unpaid assessments becoming delinquent after due date and 18% per annum on any amount of taxes in excess of \$1,500.00 becoming delinquent after due date subject to any abatement or discount for the late payment of taxes as provided by law; and, if a delinquency is or unpaid assessments in excess of \$10,000.00 and remains in arrears beyond December 31st of the tax year, an additional penalty of 6% shall be charged against the delinquency.*
- 2. Effective January 1, 2018 there will be a five (5) day grace period for quarterly tax payments made by cash, check, or money order.*
- 3. Any payments not made in accordance with paragraph two of this resolution shall be charged interest from the due date, as set forth in paragraph one of this resolution.”*

It appears from an examination of the Collector's record that interest was collected in accordance with the foregoing resolution.

OTHER COMMENTS (FINDINGS):
