U.S. Environmental Protection Agency Reviews Cleanup at The Goose Farm Superfund Site

The U.S. Environmental Protection Agency (EPA) is conducting its Fifth Five-Year Review of the Goose Farm Superfund Site located in Plumsted Township, Ocean County, New Jersey. This review seeks to confirm that the cleanup conducted at the site, which included:

- Extraction and treatment of contaminated groundwater
- Re-injection of treated water into the aquifer
- Flushing the soil using the treated water

A summary of these activities and evaluation of the long-term protectiveness of the remedy will be included in the upcoming Five-Year Review report.

What is an EPA Five-Year Review?

EPA inspects Superfund sites every five years to ensure that cleanups conducted remain fully protective of human health and the environment. These regular reviews, which are required by federal law when contaminants remain at a site, include:

- Inspection of the site and cleanup technologies;
- Review of monitoring data, operating data, and maintenance records, and
- Determination if any new regulatory requirements have been established since EPA's original cleanup decision was finalized.

When will EPA's Five-Year Review Report be available?

The Five-Year Review report will be available by mid-June 2018 at

<http://www.epa.gov/superfund/goose-farm>
