

Plumsted Thread

Volume 2, Issue 29

April 5, 2024

Fostering communication with the community by sharing worthwhile information with residents, as well as identifying happenings throughout Plumsted Township and vicinity.

- The Plumsted Township Committee is pleased to announce the appointment of John Fetzer to serve as **Police Chaplain** for Plumsted. His services are a valuable addition to the department and the township. Image shown (l to r), Plumsted P.D. Sgt. Murphy, Chaplain Fetzer & Plumsted Mayor Cuozzo.

- **NJ Local Government Week** is celebrated April 7th through 13th. Local government is closest to most citizens, and most directly impacts its residents. "NJ Local Government Week is an opportunity to help our residents become more informed about the many services we provide, which will lead to more knowledgeable citizen participation in the future," said Plumsted Mayor Dominick Cuozzo.

- The Ocean County Library's Plumsted Branch will hold its **25th Anniversary Celebration**, April 12th, from 2:00-3:30pm. The public is invited to join the celebration commemorating its initial opening, which will be held at the Plumsted Branch, 117 Evergreen Rd., New Egypt. Festivities include a food demonstration, acoustic music and a photographic journey of the branch from year's past. Registration is required. Visit www.theoceancountylibrary.org. Congratulations!

- Join in for a day of community camaraderie at the **New Egypt's Main Street Clean-Up Event**. Residents unite for a cleaner, greener environment on April 28th, at the Oakford Gazebo, Main St. and Lakeview Dr., New Egypt, from 11am until 1pm. Hosted by the Plumsted Township Environmental Committee and NEHS Environmental Club. For further information email, FoxG@newegypt.us.

- On April 8th, from about 2pm until 4:30pm, a **solar eclipse** will visit NJ. The moon will appear almost precisely the same size as the sun, blocking 90% of its rays from reaching earth. Do not look directly at the eclipse. Special glasses may be purchased or an old-fashioned pin-hole projector created to filter the harmful rays. The safest view will be via television or assorted websites.
